At Bonhams New Bond Street, 80 big names in art and architecture – among them Anish Kapoor, Marko Mori, Jake and Dinos Chapman and Foster + Partners – will exhibit works created for the Cure Parkinson's Trust (CPT), all of which are contained within a Perspex box. Cure³ 2018 is a tribute to the determination of the charity's co-founder Tom Isaacs, who described his own experience of living with the disease as being 'boxed in'. Sadly Tom died shortly after last year's inaugural show. Cure³ 2018 follows that ground-breaking selling exhibition which raised £350,000. Cure³ 2018 runs from 25 to 28 October, with the art offered at cure3.co.uk on 26 October. Bonhams Magazine readers are welcome at the private view (25 October) at 101 New Bond Street.
